## SNUBBER LINE KITS

This simple device ensures minimal strain is placed on the windlass while at anchor. Often utilised while removing the chain from windlass or securing a stowed anchor. The stainless steel snubber line hook is fastened to the anchor rode, and the line is tied off to a cleat or bollard. Muir recommend use of a snubber line and a chain stopper with all windlasses, for bigger yachts consider a devil claw and chain stopper assembly.
