REEF 550 Black Edition!

NEW

You know what they say.... bigger is always better, and the all-new Reelax Reef 550 Black Edition is going to take your excitement to the next level when out game fishing! Made from 316 Stainless Steel, and powder-coated in an alluring satin black finish you will be the envy of all your mates.

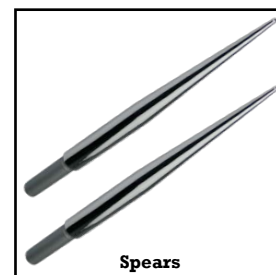

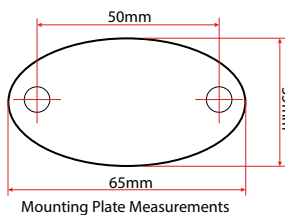

The Reef 550 Black Edition's feature a longer rigger tube to perfectly match our 5.5m outrigger poles (40mm ID). The area needed to mount these is the same as the smaller Reef 450 footprint which is 310mm x 230mm, making it easy for you to upgrade if you have a set of Reef 450's currently. These are going to redefine the wishbone outrigger market, so once you get a set of Reelax Reef 550 Black Edition bases you'll never go back!

STANDARD CENTRE SHOTGUN OUTRIGGER KITS

Australian Made Export Quality
www.reelax.com.au

STANDARD CENTRE SHOTGUN OUTRIGGER KITS!

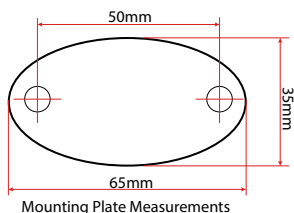

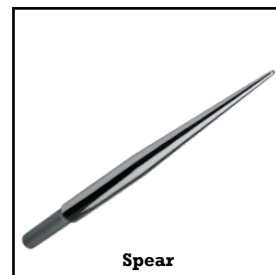

NEW

The Reelax Standard Centre Rigger is adjustable to 3 different positions (15, 30 and 45 degrees). The unit folds up and down to allow pole to lay flat or stand up. Ideal for running a fifth line in the centre of the boat out past the riggers. Mainly used for light to medium trolling.

Mounting feet to be approximately 150mm apart when fitted. Designed to suit 3m centre rigger / shotgun poles. Constructed of 316 stainless steel, electropolished, then mirror polished.

T-TOPPER OUTRIGGER KITS

Australian Made Export Quality
www.reelax.com.au

Introducing the T-Topper!

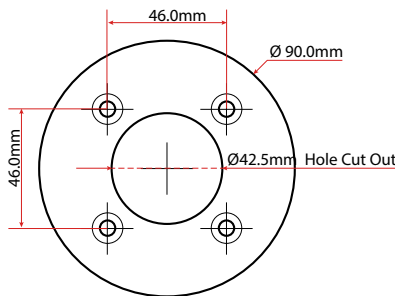

Don't let your partner tell you size doesn't matter; these bad boys come in 3 and 4.5 Metre lengths, including all Glass or 3k Carbon poles.

The Reelax T-Topper is a light to medium tackle (up to and including 24kg – 50lb) trolling outrigger base. Best suited for trailer boats, the Reelax T-Topper can be mounted to the horizontal surface of a T-Top, cabin roof, or top side coamings, or even a vertical plane on the Targa side. Adjustable up and down, as well as in and out. The stainless steel tube diameter is 44.45 mm O.D and 41mm I.D. Constructed of 316L stainless steel, electropolished, then mirror polished and sold as a pair.

GUNNEL MOUNT OUTRIGGER KITS

Australian Made Export Quality
www.reelax.com.au

Gunnel Mount

This is the hugely popular Reelax Gunnel/Gunwale mount for outriggers designed for deck, cabin or flybridge mounting on just about any size boat. Thanks to the unique Reelax slotted spline, it is infinitely adjustable, with 20 positions on the spline.

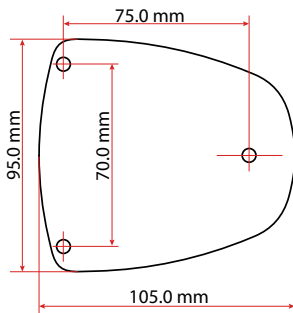

The whole concept works on the K.I.S.S. principle. There is nothing to unclip, fold down, undo or unscrew. The crew person simply takes the outrigger pole, lifts the rigger momentarily to the desired trolling or travelling position and slots it back down home and away you go. It really is that simple!

Recommended for use with the 3 or 4.5 metre poles. The stainless steel tube diameter is 44.45 mm O.D and 41mm I.D. For trailer boats, it is hard to imagine a better system. The poles are fixed into the top half of the gunnel mounts, whilst the bottom half is fixed to the boat. PVC mounting gaskets are included for base mount as required. The area needed for the mount is 120mm x 120mm. Constructed of 316L stainless steel, electropolished, then mirror polished and sold as a pair.
